Profile

I am a graduate of the Applied Bachelor of Computer Science program from Politeknik Negeri Batam in 2024, majoring in Informatics Engineering with a concentration in Multimedia Engineering Technology, achieving a GPA of 3.71 with honors (cum laude). I have over one year of professional experience in Web Development, Web Design, and Technical Support. During my studies, I participated in 4 Project-Based Learning initiatives spanning Multimedia and Programming fields. I was a finalist in the Game Development competition organized by KMIPN in 2022 and participated in the Web Development competition organized by SEVENT from Institut Teknologi Telkom Purwokerto in the same year. I am currently seeking job opportunities in Web Development, Full-Stack Development, Web Design, and Technical Support, while remaining open to contributing to the Multimedia industry based on my academic background.
